Driver Rehabilitation & Training Program

~ROAD TO SUCCESS~

Since 1957, the Occupational Therapy Department has been involved in helping people with disabilities become safe, skilled, and independent drivers. The Driver Rehabilitation and Training Program offers a variety of services that can be individualized to the client.

Who Can Benefit?

People with age-related changes, amputation, arthritis, brain injury, cerebral palsy, chronic disabilities, dementia, diabetes, multiple sclerosis, polio, spina bifida, spinal cord injury, stroke, medically at-risk seniors, and others may benefit from this program.

Requirement:

The Driver Rehabilitation and Training Program is a hospital-based program; therefore, those interested must provide a physician's referral, medical history records, and health insurance information. A valid driver license or instruction permit is needed for any on-road evaluation and training.

Staff:

Highly qualified staff includes registered/licensed occupational therapists, certified driver rehabilitation specialists, and driver rehabilitation driving instructors.

Funding:

This program is made possible in part through the financial support of the American Honda Motor Company.

Hours:

Individual Sessions Available:
8:00 A.M. – 4:30 P.M.
Monday through Friday

Driver Support Group:

2nd and 4th Tuesdays per month (1:00 pm)
